

# Adapted Book Letter Match

## Alphabet Book

You will need:

1. An alphabet book
2. Sticky notes or the alphabet letters from the next page with velcro and laminate.

 To use the sticky note version:

Write the letters of the alphabet on the sticky notes and attach them to a sheet of paper. Teach the child to flip through the book and match the letters to the correct pages. For beginners, only use a few letters. At a more advanced level, use many or all letters of the alphabet.

 To use the velcro version:

Cut out, laminate, and velcro the alphabet letters. Add velcro to a laminated sheet of paper and attach some or all of the alphabet. Finally, add the opposite side of the velcro into the book next to each letter. Teach the child to flip through the book and match the letters to the correct pages.
