

## To Assemble “My Candy Book”

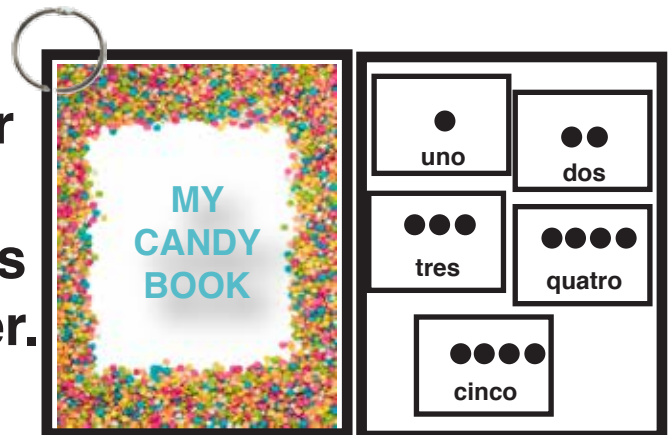

Laminate the cover and five pages of the book and the matching pieces of your choice. Also, laminate a sheet of plain paper.

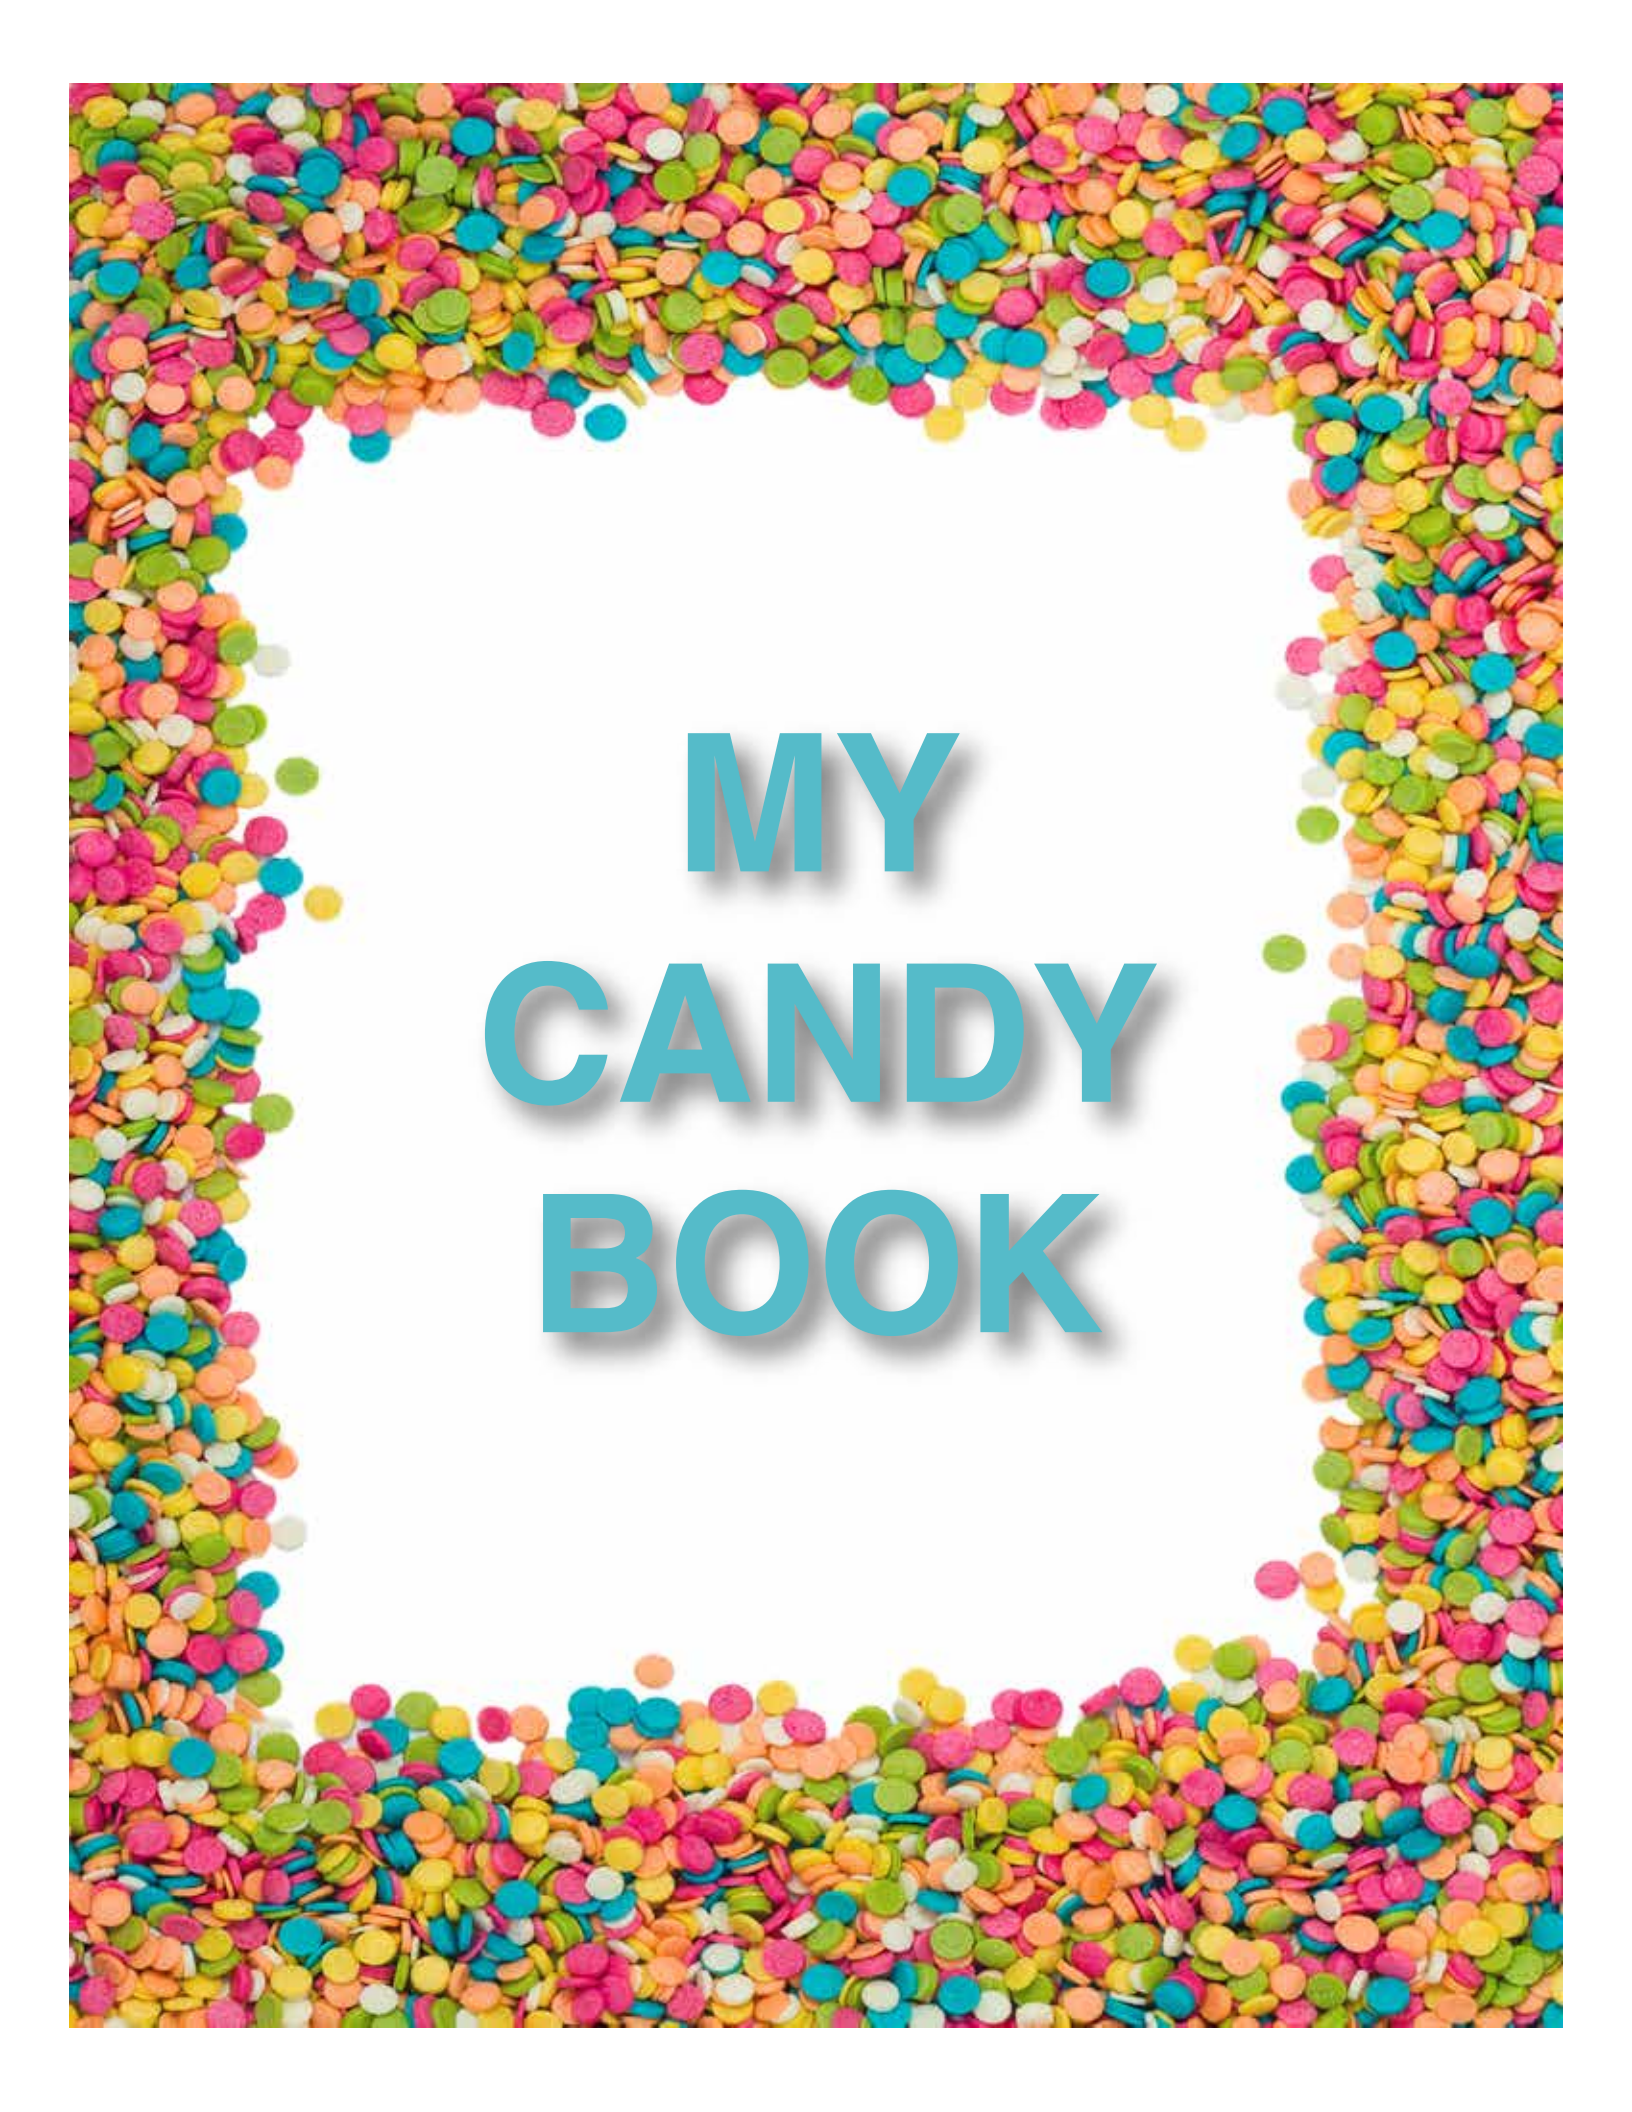

Add velcro to the center of each book page, and the opposite velcro to the back of each matching piece.

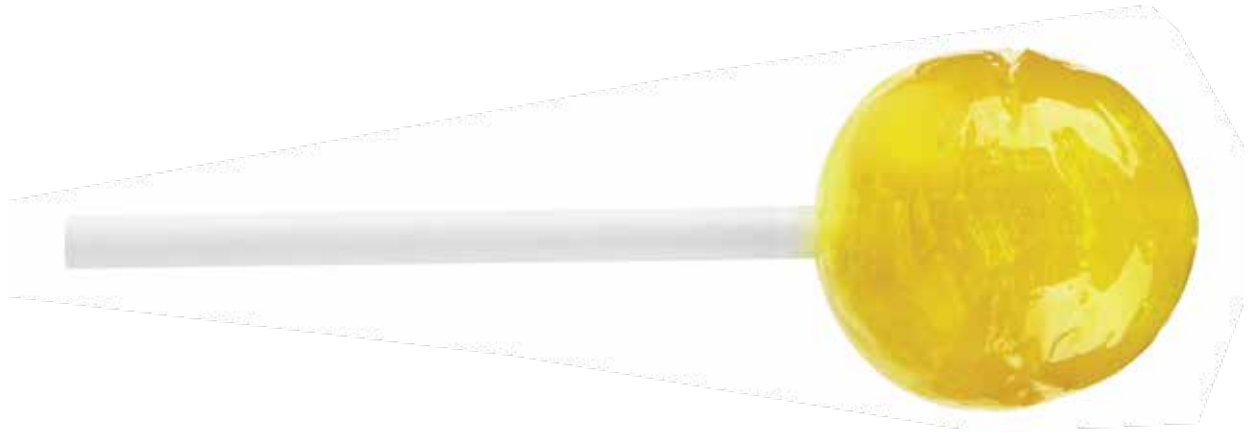

Use a binder ring or another way to attach the the pages of the book together.

Finally, attach the blank laminated sheet to the last page of the book with tape. Add velcro and attach the matching pieces of your choice. As the student flips through the book they will take the pieces from this flap and match them onto the pages.
